

Emotions Bingo

To help recognize emotions by linking the name of the emotion to the face that expresses that emotion.

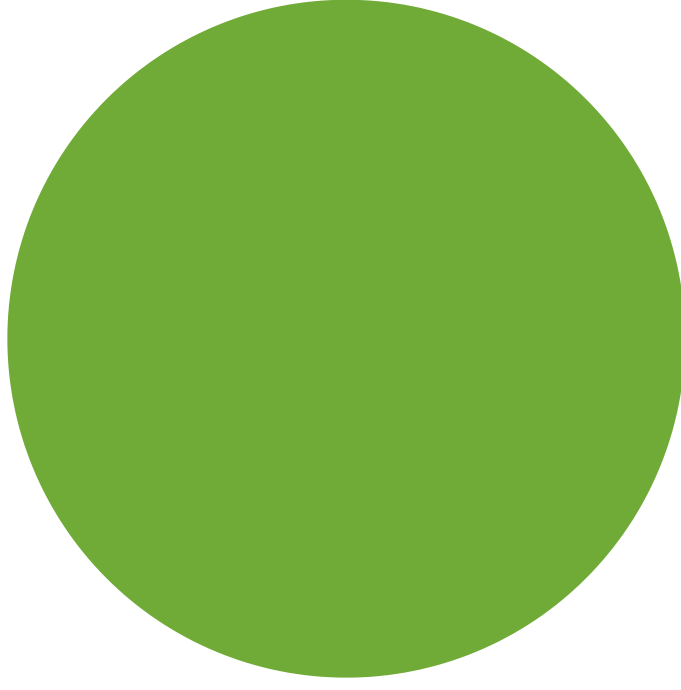

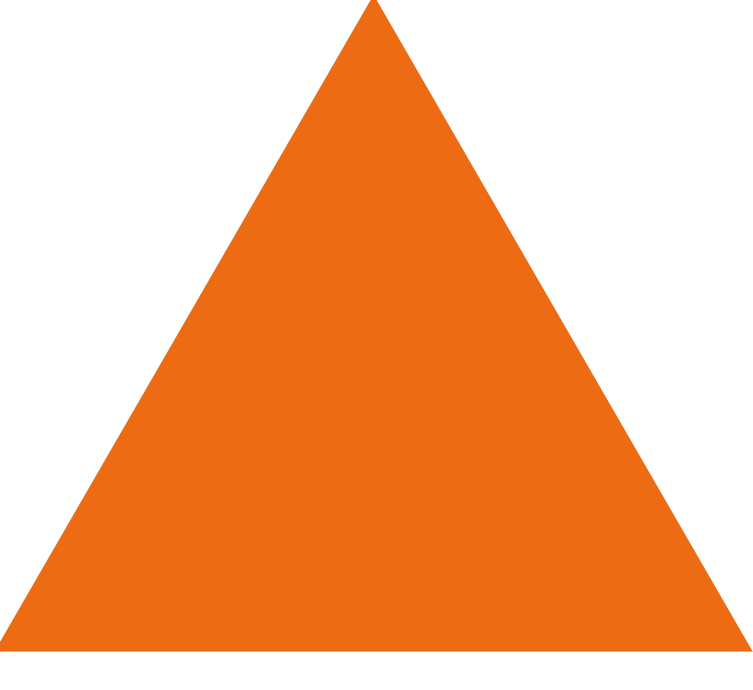

Required material

Bingo cards, bag, pins (or small objects) and scissors.

Step-by-step activity:

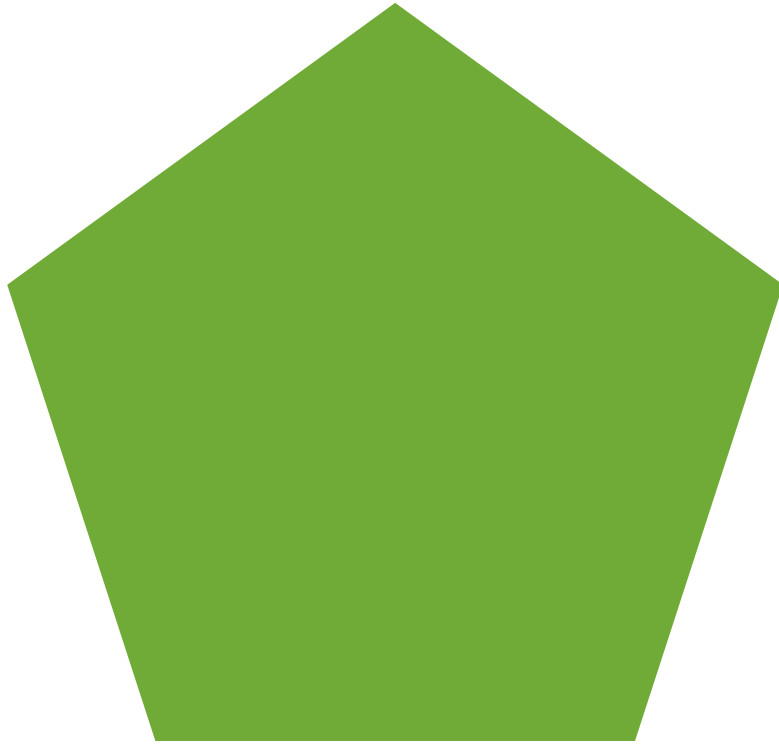

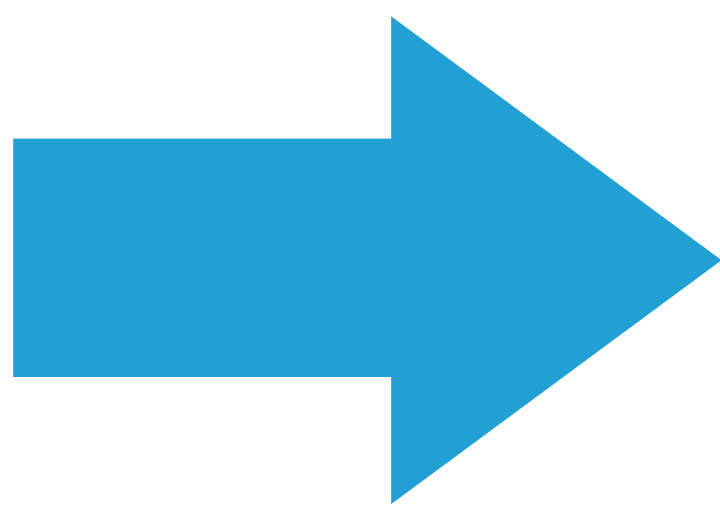

1. Print the attached sheet in card stock paper and give one card to each player.
2. Print the sheet with the geometric figures, the smiley faces and the numbers, cut out all the elements and place them in a bag.
3. A player shall be responsible for taking a figure from the bag without looking and showing all players the card.
4. When he or she shows the card with the picture, each player must make sure that the same picture appears on their own card. If só, the player must place a pin (or a small object) on top of the figure that has been drawn.
5. The goal is to complete the card first. The person who completes it first should help others complete their cards. The game will only be finished when all the figures are drawn.
